I have often wondered why it was that the Secesh occupied these Gaps; for there are several of them, you must know—the Cumberland, Roger's, Wilson's, and Big Creek —all within a range of 33 miles, and all leading into this, Powell's Valley. Powell's Valley is a narrow, beautiful, and a most productive strip of land lying at the foot

of the range of the Cumberland Mountains, over fifty miles in length, and ranging from a half to one mile in width, bounded on the south side by a low range of small hills. It is, truly, the garden spot of the Southern Confederacy. As soon as you get sight of it, from the top of the mountain, you see the most magnificent sight that ever the eye looked upon. It goes so far ahead of anything I ever witnessed on canvass, that I was perfectly en-chanted for the time being. It is convenient to the line of railroad running to Virginia and the South, and is well capable of sup-plying the whole rebel forces with provisions for some time to come, and "that ac-counts for the milk in the cocoa nut." It is my opinion that the position that our divis-ion of the army of the Ohio at present holds, people of East Tennessee, for the good of our country and our cause, may God, in His mercy and wisdom, assist our commanding

officer in carrying out his plans and designs in clearing this most beautiful section of our country of the vile presence of the thieving marauders that now infest it!

As soon as our forces had got clearly away from the vicinity of Flat Lick, where all our division stores were kept, some hell-hound (or hounds) of Secessia fired two of the largest warehouses, and destroyed several thousand dollars' worth of Government stores and property. Dr. Whetmore, of the Ohio Battery, ven-tured a little too far from the camp lines three days ago, and was captured by some Secesh cavalry. He was not a soldier, but only accompanying the battery as a "horse doctor." We understand the rebels are taking him around exhibiting him as a true specimen of a "real live Yankee;" the first they have caught in this section of country. the rebels at Richmond are overrated, as were the forces of Beauregard at Corinth. It was the current testimony of spies and deserters that not less than 150,000 or 200,-000 armed rebels were behind Beauregard's intrenchments, but upon the occupation of Corinth it was proved beyond a question that he never had more than 75,000 there. He laughs at the report that Gen. Beaure-gard has re-enforced that army to the extent of a single soldier, he considers the war in the West as virtually at an end, the only thing yet to be done being to possess and hold the immense breadth of country already really conquered. In answer to a question concerning the 10,000 prisoners taken by him, according to Gen. Halleck, he says he took 3,000 men—they could hardly be called soldiers—and 22,000 stand of arms; many of the captives were from Kentucky and Tennessee. Beauregard's rear guard was driven south. Having no means to feed them, and believing there was little tempation for them to join the Gen. Rousseau was on the floor of the

A letter from Mr. Raymond to the Times says General McClellan is bringing up from Yorktown siege guns, some of which have already arrived. The rebels show no disposition to assume the offensive again, in force; but are evidently preparing to resist an attack. Their occasional demonstrations, like those of Saturday night, seem intended to draw us in an attack; but they have no General who is capable of making McClel-General who is capable of making McClei-lan fight until he gets ready; nor of making him fight upon a plan of their selection. The Owen County Affair. The Lexington Observer, of the 26th, gives the following particulars of the affair

in Owen county last Friday: On Monday evening Captain W. W. Bradley, of Harrison county, arrived in this city with thirteen prisoners from the scene of the outrage, who detailed to us the facts in

wishes, promising to be with them on Sat-urday. This would not answer—the speak-ing had to come off on Friday, and Mr. Rankin secured the services of a Mr. Smith, a prominent Union man, to make the desired speech. Mr. Smith accordingly deseries of resolutions were introduced, which all present were to sign. About the time the signing commenced, Capt. Bakes, with his company of Home Guards, from Grant county, made their appearance—upon which a signal gun was fired—two of his men were shot dead, and himself and another of his men wounded. Capt. Bakes, doubtless feeling himself largely outnumbered, retreated.
About twenty minutes after the attack upon
Bakes, Capt. Bradley arrived on the ground with his company, when the crowd immediately surrounded him. One man had the temerity to rush into his ranks and shout for Jeff. Davis and the Southern Confederacy. He was warned to stand back and be silent, but insultingly preserved, until receiving a shot through the head which killed him instantly. This, and the firm-ness evinced by Bradley and his men, cooled and scattered the mob. As Capt. Bradley was moving away with twelve prisoners in charge, a man by the name of Foster, mistaking the Home Guards for his own guerrilla party, ran in among them and was taken prisoner. This man, Rev. Henry T. Foster, is decidedly a character, and we cannot refrain from devoting a little space to him. After being arre-ted he endeavored to make his escape through the woods when some thirty-five shots were fired at him, one of which passed through his left ear, striking his forehead just above

negro insurrection in Owen, which caused so much alarm some time since. He is the same Rev. H. T. Foster who was taken in

Clarke county, in the troop of rebels bound

for Humphrey Marshall's camp, by Colonel Craddock and Major Buckner, some months since. A more hardened rebel and sinner than this wicked, hoary-headed man does Major General Pope believes the forces of not, perhaps, exist in all the nation. He is a man of intelligence, and seems to be fully bent upon evil, eschewing in toto all moral restraints. That this whole affair may be more perfectly understood-why the Home Guard companies happened on the scene of the raid nearly at the same time, &c .- we will explain, according to the information we derived from Captain Bradley. Bakes and Bradley's companies met at Owenton a few days preceding the affair at Lusby's Mills, the latter having in his possession twelve prisoners whom he had arrested in different parts of the county, whom he intended to convey to Berry's Station for transportation to Lexington. After consultation the two Captains agreed to take different routes to the station, that being the destination of both. Captain Bradley was to go one way, whilst Captain Bakes was to pass Lusby where it was understood a meeting was to be held on Saturday. Bradley thinks this arrangement was divulged by some bystander in Owenton, and the information conveyed to the guerilla camp. He (Bradthey informed him, when within three miles of Lusby's Mills, that a fight was going on

there, to which point he immediately pro-ceeded. The bloodshed that marked this raid was certainly not anticipated by the Union men.
It is the opinion of Capt. Brad ley that the pretended Union meeting at Lusby's Mills, so near the guerrilla camp, which Foster states had been in existence for two weeks, was a mere trap to catch and assassinate

The guerrilla camps in Owen were organized, according to Foster's statement, by a Capt. Bullitt, who has been pretty constant ly on the ground swearing in all who might present themselves to support Jeff. Davis and the Southern Confederacy. Bullitt and his gang of desperadoes, however, will not have much longer time for play in Owen or any other county in Kentucky, as a sufficient force is in pursuit to fully arrest their evil doings. If the halter, which they richly deserve, does not catch some of the shall be surprised.

EXHIBITION OF THE LOUISVILLE FEMALE HIGH SCHOOL .- Last evening the large hall in Masonic Temple presented a grand and imposing appearance. Never have we on any former occasion witnessed such a large, fashionable and delighted audience. At 8 o'clock the graduates appeared on the stage, which was handsomely decorated with flags. Prayer was offered, and the exercises began. It were needless for us to make any comments whatever on any part of the exhibition, for we are confident that each and all went far beyond the expectations of their many friends. The readings were fine, the compositions were beautifully composed and read, and the sweet voices in song, under the skillful instruction of our musical friend, Prof. H. G. S. Whipple, added greatly to the interest. In fact, all that was intended to be accomplished we are happy and proud to say was crowned our citizens look upon it as one of the ble. We subjoin the proudest institutions in the State. Prof. Bliss, with the aid of his assistants, has made it such, and great credit is due him as a gentleman and a thorough scholar, for his untiring energy and good management during his administration as the principal. We earnestly hope that this entertainment may be repeated as soon as convenience will pormit, as hundreds went away disappointed in not witnessing the most pleasing and instructive entertainment of the kind ever given in this city. We hope the fair graduates will consent to repeat, and we promise that a large audience will greet them with their smiles of approbation.

From East Tennessee and Georgia

The Atlanta (Ga.) Intelligencer of the 18th contains the following: KNOXVILLE, June 16.

Enemy went back through Big Creek Gap. Large Federal forces reported at Pikeville and Crossville.

Pikeville is near the head of Sequatchie Valley, and Crossville is about thirty miles distant, on Cumberland Mountain. It is supposed these two forces will unite at Post Oak Spring; seven miles west of Kingston, and attempt to march through Kingston, to Loudon bridge on Knoxville.—Eds. Intelligencer.]

Again:

every source confirms us in the opinion we expressed a few days since, that the Yankees will move on East Tennessee in two or three separate columns at the same time. An attack will be made on Chattanooga, on Knoxville or Loudon Bridge, through Kingston, and through the gaps of the Mountains into Powell's Valley simultaneously. The object of the enemy in this strategy is to divide the forces under General Smith and overcome them in detail, by superior numbers. We therefore urge again upon our authorities to send up all the reinforcements to East Tennessee that can possibly be spared from other points. THE ENEMY'S DESIGN ON CHATTANOGA-ITS

REAL DANGER. On yesterday, in announcing the fact that the enemy had retired from before Chatta nooga, we expressed a doubt as to his future designs upon that important point, We are now satisfied as to his designs The attempt, and a formidable one it will be, will be soon made to capture that city. The evidence is before us. From the best authority, we learn that the enemy are encamped some eighteen miles below Chat-tanooga, on the opposite side of the river— the force that attacked that city on Saturday and Sunday last having fallen back that far. That force is now engaged in sawing lumber, and appear to be working as though they were making flatboats.-With them is a gunboat, some two and a half miles below their present encampment It is a flatboat, with stationary power put

on for propelling it, and has three pieces of cannon on board. The object of this craft, doubtless, was to tow flats under cover of its guns, in crossing the river with troops. Such is the position now of the enemy, and such are his preparations for another advance on Chattanooga.

We are also advised that General Kirby Smith is in command, in person, of our forces at Chattanooga, and that great comfidence is reposed in him, and his ability, with his forces, to defend successfully that city. The citizens, as well as the military there, are determined not to surrender the city, but to hold on to it, let the enemy shell it as much as they please—a patriotic and gallant determination which, we trust, will result in defeat of the enemy's designs.

But should Mitchell be largely reinforced -should he bring to bear upon Chattanooga more than one gunboat-should he succeed in getting possession of the city-what will be the situation of Georgia? We pass by Georgia's cut off from supplies of salt, coal, provisions, and the obstruction and partial destruction of the State road, these being certain consequences of the capture of Chattanooga, and turn to consider the consequences to the State from the raids of the enemy. Our mountain country will be-come pasture fields for the enemy to feed upon, and summer it in, and as he gathers strength from reinforcements, he will be as certain to advance into the interior, and towards Atlanta, as he is an as we before intimated, only be prevented by the organization of a force to oppose his progress, and it must come from the militia of the State. Like Virginia, every man able to bear arms that can be armed, will have to take the field. Our people must pre-pare for this. They must be ready. The Governor will have to enforce his orders to the militia officers of the State to organize and be ready for the field. We are no alarmists, and have no desire to create excitement among the people. We are not blind, nor will we shut our eyes to the truth that Georgia is in peril should Chattanooga fall into the hands of the enemy. As "sentinels upon the watchtower," we therefore, with the signs before us, "sound the alarm.

It was a quarterly meeting occasion when the wine was FIFTEEN YEARS' EXPERIENCE. taken, and the effect was frightful. Although it was a serious matter, the sinners, owing doubtless to the hardness of their hearts, did laugh excessively as the brethren and sisters, in gangs of from a half dozen to a dozen, were leaving the church, depositing the contents of their stomachs in their hats and aprons as they went.

Boiler Explosion .- A steam boiler explosion took place last Monday morning at the mines of E. W. McGinness, on Mill creek, Schuylkill county, Pennsylvania, resulting in the death of Cornelius Dyer and John Curry, and slightly injuring five or six other men employed about the mines. The boilers, three in number, were thrown entirely off their beds, and the engine-house torn to pieces. The accident is supposed to have been occasioned by the stoppage of the flow of water into one of the boilers.

A correspondent writes that General Gideon J. Pillow has fallen into disgrace with the Secessionists. He is now living near Oxford, Mississippi, terribly awakened from his dream of martial glory; knowing he is a butt and jest even with the people he declared himself determined to save from Northern invasion. He recently paid a visit to Beauregard at Okolona, and the former was so disgusted with Pillow that be refused to see him. Gideon foamed and raved, and talked of challenging Beauregard, but did not; and returned to his place of residence full of oaths and morti-

All the papers speak of its distressing continuance and destructive effects. Should it last much longer the grain crop will be entirely cut off; grass has gone already.

Medical Infirmary, Conducted on the plan of the Hospital des Veneriens, Paris,

WHERE THOSE AFFLICTED WITH ANY FORM years of extensive practice exclusively de-the treatment of those complaints, enable us cures in cases where others of less experience to effect cures in cases where others of less experience have failed.

Special attention given to the treatment of Nervous Debility, Impotency, Seminal Weakness, and all those distressing symptoms caused by a secret habit of youth, which ruins the body and mind, unfitting the sufferer for either business or society. Some of the effects of these early habits are dizziness of the head, dimness of sight, palpitation of the heart, weakness of the back and limbs, nervousness, dyspepsia, aymptoms, &c. Upon the mind they produce loss of memory, confusion of ideas, depression of spirits, evil forebodings, aversion to society, self-distrust, timidity, &c. Our remedies prevent and cure Nocturnal Emissions, give tone to the nerves, strength to the system, and cheerfulness to the mind.

Married men, or those contemplating marriage, who are suffering from any of the above fearful maladies, can obtain permanent and speedy relief by an early application at our office.

Straight-Line Movements, Original Transverse Shuttle, and Periphery Clamp Feed-Wheel.

THESE SEWING MACHINES COMBINE THE
most recent improvements, are nearly noiseless
when in operation, run with the greatest case and rapidity, and are better adapted for general purposes and
amily use than any other. They are not liable to get
out of order, are exceedingly simple, and are made expressly for real practical utility; they do every variety
j sewing, from the finest woven tissue to the heaviest
woolen goods, both tailoring and fine leather work.
Any person may learn to operate them in a very short
time. Any person may learn to operate them in a very suctime.

The great difficulty with all other old-style Machin is too much complication, requiring so much constraints adjustment, and such an amount of mechanical sk and ingenuity to use them to advantage, as to rend them of little comparative value.

But the Sewing Machines manufactured by Gree man & True are not liable to these objections, as a person, on even a pioment's examination, will read discover. They will do more and better work than a other Machine ever offered to the public, making i most beautiful lock-stitch, alike on both sides. So for an off-hand specimen of sawing upon any mates you wish, and you will then see now it is done.
